

John F. Kennedy

Did you know that our nation's 35th President was a war hero?

During World War II, John Fitzgerald Kennedy was a lieutenant in the U.S. Navy and was commander of a patrol torpedo boat. While taking part in a nighttime patrol, his PT boat was rammed by a Japanese destroyer. Kennedy was tossed across the deck, causing him to reinjure his back. Although he was hurt, Kennedy knew he had a responsibility to his men, so he gathered his men together and swam. Kennedy towed a wounded man by using a life jacket, clinching the strap in his teeth!

John F. Kennedy demonstrated the Power of One! What are you doing to make a difference?
